

# The Evolver Voice Box : 28 patches d'effets pour Evolver

**The Evolver Voice Box** is a bank of 28 FX programs created in the same spirit as the **A Darker Evolver**. It exploits the unknown potential of this synth for the processing of external sources through filters, feedback and the 3 available delays. Most of the effects have been programmed using voices but it is up to you to experiment with other types of sources (drums loops, music, synth, ect ...).

**NB:** seule la molette de modulation a été utilisée de manière à laisser à l'utilisateur la liberté de déterminer les paramètres pertinents susceptibles d'être assignés.

## How to load **The Evolver Voice Box** sounds bank in your Evolver

First of all, it is advisable to save the programs of your Evolver by referring to the specific chapter of the manual (page 17 for the Evolver Desktop: *MIDI Dump*).

**The Evolver Voice Box** folder consists of two different format files: Standard Midi File (SMF) and ebp, which is format of the SoundTower Evolver SoundEditor Editor.

It is important to note that programs will load into bank **4** of your Evolver (from N°101 if you bought the bank **A Darker Evolver + The Evolver Voice Box** and from the N°1 if you bought the bank **The Evolver Voice** alone).

1) To load the *standard midi file* into your Evolver, start your sequencer (Cubase, Logic, Ableton, ect ...) and create a MIDI track. Make sure that the MIDI output port of the interface is connected to the MIDI input port of the Evolver and that the channel numbers are the same. Once playback has started, you can follow the numbers of the programs that are being loaded; when the number 128 is reached, your bank A Darker Evolver is loaded and ready to use.

2) To load the *ebp* file into your Evolver, start the Evolver SoundEditor software and make sure that the MIDI interface selected in the MIDI → MIDI Setup menu is the same that the one which is connected to the Evolver. Then, in the "Program" menu choose "Load Program Bank To" and locate the file *A Darker Evolver.ebp* in the folder A Darker Evolver on your computer. Once the **D** bank is loaded, the names of the programs are displayed in the corresponding column, you simply have to send it to the Evolver by selecting in the "Program" menu the command "Transmit Bank → Program Bank D". Once this is done your bank **The Evolver Voice Box** is loaded and ready to use.

**Note:** **The Evolver Voice Box** sounds bank is compatible with **all** Evolver models including Poly Evolver Rack and Poly Evolver Keyboard.

For any problem / request, thank you to send an Email to [empereairepierre@hotmail.com](mailto:empereairepierre@hotmail.com) : a delay of about one day is necessary to get an answer.

## THE EVOLVER VOICE BOX

Patch	Name	Trigger Mode	MIDI SYNC
1	Vari Speed Seq	Sequencer	NO
2	Evocoder	Sequencer	
3	Creatures	Sequencer	NO
4	Pitched Echoes	Sequencer	NO
5	Psy Cloud	MIDI	
6	Broken Line	Sequencer	NO
7	BubbleGhost	Sequencer	
8	Pop Trigg	Sequencer	NO
9	Multimode Filter	Sequencer	NO
10	From Nowhere	Sequencer	NO
11	Echoes Chamber	MIDI	
12	Evo Robot	MIDI	
13	Speaking Robot	MIDI	
14	Nice Bug	MIDI	
15	Echo Dream	MIDI	
16	ComeAndGo	MIDI/Sequencer	
17	Panic Room	Sequencer	NO
18	Pad Me	MIDI	
19	Synth Me	MIDI	
20	Lead Me	MIDI	
21	Gated Filter	MIDI	
22	Chaos	Sequencer	NO
23	Up and Down	Sequencer	
24	Cadavre Exquis	MIDI/Sequencer	NO
25	Distant Signal	Sequencer	
26	BlackHole	Sequencer	NO
27	Jumpy Wha Drone	MIDI	
28	Trill Drone	MIDI	

**NB:** The "no" in the MIDI SYNC column means that at least one sequencer track is assigned to the *Tempo clock multiplier* parameter. In this case, if the Evolver is synchronized to a MIDI clock, the modulation of this parameter will not occurs.
