

**Pulsar** is a collection of 40 sounds for the Roland Boutique JU-06A in Juno 60 mode, check the demo !

Once downloaded, the file must be unzipped. To load the set in your Roland Boutique JU-06A, just connect your instrument using the USB, hold the button bank '2' and switch on the JX-03. It should appear as a 'HD' in your computer. Then drag and drop the file in the sound directory Restore. Eject the JU-06A on the computer and press the arpeggio button On/Off. Switch off the JU-06A. Power on...and have fun !
